We are a charitable non-profit organisation of over 1,000 Jewish doctors, medical students and paramedicals which holds interesting regular speaker nights, clinical meetings, social functions and major conferences. We endeavour to promote fellowship amongst our members whilst raising funds in support of medically related causes in Israel, as well as providing Scholarships and travelling fellowships to encourage professional interchange and student electives between Australia and Israel in both directions. Membership is free for full-time students and we trust our activities are of some interest to you.

WE URGENTLY NEED YOUR SUPPORT NOW

We are most grateful for your support and hope that you are able to join the efforts of hundreds of others like you by paying *the Tax-deductible Subscription for this financial year to assist us towards our common goals.**

Best wishes, *Harry Kaplan (Hon. Treasurer)*
